# Why We Walk

“Improving the lives of people living with dementia and their caregivers is a key area of research for the Center on Aging and Health, and the Baltimore Walk to End Alzheimer’s is an opportune way to give back to the community.”

*Jennifer A. Schrack, PhD*  
*Director, JHU Center on Aging & Health*  
*& Associated Investigator with the JH ADRC*

# Why We Walk

Veronica Washington  
Administrative Research Coordinator  
JH Alzheimer's Disease Resource  
Center for Minority Aging Research

“My family will join in the Walk to End Alzheimer's to pay tribute to my grandmother, Nancy “Weezy” Price. Supporting research endeavors focused on finding a cure for this disease ensures that her memory and resilience continue to endure. A heartfelt salute to all caregivers, including my mom and aunt (pictured), for their tireless dedication to prioritizing their loved ones. You all ROCK!”
